**Enjoy green life
with our rattan rolls!**

Contents

With the use of the latest extrusion technology, our company requires a highly trained labor force. We consider the training of the staff of strategic importance. All kinds of training courses especially technical courses are provided on a regular basis.

With intensive quality control, Leisure Touch Rattan meets ISO9001:2000 system standard. We apply AQL (Acceptable Quality Level) into all stages, ranging from IQC (Incoming QC), IPQC (In- Process QC), FQC (Final QC) and OQC (Outgoing QC). Each Quality Check is properly filed for easy reference and tracking.

With proven expertise and decades of hands-on experience in the PE and PS extrusion and outdoor furniture industry, we have a thorough understanding of both global market demands and customer needs.

This test report is generated by the tests and conditions, available on request or available at any reasonable general circumstances. Attention is especially drawn to the limitations of liability, indemnification and jurisdictional provisions outlined therein. This report is issued solely based on the testing of the samples submitted to you. The test results in this report refer only to the samples actually tested and do not refer to the material or to any bulk production from which such samples may be taken. It is the responsibility of the client to ensure that the samples submitted are representative of the production quantity of samples. MTS, in the absence of any contrary written instructions, performed random sampling of bulk production for testing purposes. Variations in the conditions under which samples are stored, transported, etc., may lead to variations in the test results. MTS cannot anticipate and shall not be held responsible for conditions of test results that may be due to factors beyond MTS control, such as, sample color-compatibility, susceptibility of visible substances due to storage temperature, humidity, etc. This report does not constitute a recommendation, advice or implied, for any specific amount of article. Other than the experimental parameters made in the Terms and Conditions of the MTS Test Request Form, MTS makes no warranty or representation either explicit or implied with respect to this report in no circumstances whatsoever shall MTS be liable for any consequential, special or incidental damages arising out of or in connection with this report. As per regulation of China Measurement Accreditation (CMA), a report without CMA accreditation logo will not serve as a foundation to the public for the purpose defined by CMA regulations.

What we do

You learn I teach set up your own rattan furniture factory!

*Materials:

As the manufacturer for PE rattan, plastic wood and plastic accessories, customers can order the materials from us with the competitive prices.

*Machines:

As an outdoor furniture factory, they should have cutting machine, bending machine, punching machine, drilling machine, welding machine, polishing machine and weaving facilities in place. We can run the errands on behalf of customers with purchasing all these machines in China with required specifications and ensured quality.

*Training:

On top of the materials and machines, training of framing and weaving is the most critical. Manpowered with skilled coaches, we are enabled to train the workers how to make the frames and how to weave with hands-on teaching and mentoring on a daily basis.

We have helped our customers set up their rattan furniture factories in Georgia, Uzbekistan, Bolivia, Azerbaijan, Kyrgyzstan, Nigeria, Tanzania and Pakistan. With proven expertise and years of experience, we can facilitate you to set up the rattan furniture factories and help you expand your business.
